

The art of conversation includes the ability to have a difficult one and both people walk away with a positive sense of regard for each other

CHALLENGING CONVERSATIONS

With organizations having to adapt to a constantly changing world, the capacity to have effective conversations is more important than ever. Whether the topic of your conversation is delivering a difficult message, giving tough performance feedback, or confronting insensitive behavior, the reticence most of us feel about having challenging conversations can be overcome.

Challenging Conversations covers all of the most challenging, intense, and emotionally charged types of conversations. Using a flexible five-step model, participants use work examples to practice new skills and have ample time for personal reflection on issues they face in their daily lives. These include speaking up without alienating the other person and being able to listen even if you are triggered by what you hear.

There are five interconnected steps to having a challenging conversation:

- S** State your concerns directly
- P** Probe for information to gain deeper understanding
- E** Engage each other through wholehearted listening
- A** Attend to body language
- K** Keep forward focused when possible

All of these steps are important, although steps S, P, and E are the starting points. Depending on the situation, pick one as a conversation opener. Step A should be used throughout the entire conversation. Step K concludes the conversation.

LEARNING OUTCOMES

- A culture change that sets preferences for approaching difficult or conflict-ridden conversations
- A common language and approach for successfully managing challenging conversations
- Improved interpersonal communication skills through behavior modeling, practice, feedback, and coaching
- A deepening of managers' competence and commitment to conduct challenging conversations

PROGRAM FORMAT

This program provides opportunities to build competence and commitment in preparing for and conducting challenging conversations. In an energizing, interactive, and safe environment, participants practice the types of challenging conversations that have become so much a part of daily life. Workplace situations are the key focus, but these skills are equally useful in managing difficult conversations with family and with others outside of work.
