

## Strategic Guide to Critical Thinking

Critical thinking is the objective analysis and evaluation of an issue to form a judgement. With the significant amount of data and information that is available in today's workplace, being able to leverage critical thinking skills is more valuable than ever; however, employees are often not taught this valuable skill set. This workshop will give you some practical tools and hands-on experience with critical thinking and problem solving. Workshop length and content can be customized to meet your training needs.

### How You Will Benefit:

- Define critical and non-critical thinking
- Identify your critical thinking style(s), including areas of strength and improvement
- Work through the critical thinking process to build or analyze arguments
- Improve key critical thinking skills, including active listening and questioning
- Develop and evaluate explanations and use analytical thought systems and creative thinking techniques
- Prepare and present powerful arguments
